Accreditation Table d'Hote 3 Course Menu

Appetizer - Tidbits on School Age Accreditation.

This appetizer will give diners the flavour of what is to come. Bite size pieces of information on how things will work once School Age accreditation moves to The Alberta Association for the Accreditation of Early Learning and Care Services are blended with just a hint of how this will affect those programs which have already started the process and those who have not yet applied for accreditation.

Main Course - Child Care Accreditation Stew

This hearty stew will contain information on the many aspects of the accreditation process. The variety of flavours of the Portfolio, married with the meat of the Interactions Checklist, combine to create a filling meal. And just a taste of what has changed in the process will round out this main course

Dessert - Re-accreditation Chocolate Bombe

No meal is complete without something sweet to top it off. The streamlined texture of the re-accreditation tools create a light but satisfying follow up to the main course of accreditation. This dessert will be iced with information that will help ease your stress - a key component of any good dessert!
